

# International Networking

**IFAT Munich**  
**15.05.2024**  
**16:30h**

The future of business is green and global. Especially when it comes to water and digitalization, there are no limits to the development towards a sustainable future.

Join us for the **Green Economy International Networking Event at IFAT 2024 in Munich on May 15, 16:30 - 19:30 at Turmblick OST, Messe München.**

The event will be opened by Viktor Haase, State Secretary of the Ministry of the Environment, Nature and Transport of the State of North Rhine-Westphalia and will host organizations and companies from around the world that are transforming the Green Economy.

We will be inspired by short pitches highlighting the role of AI in the water sector, followed by networking drinks with organizations and companies from Germany, USA, Netherlands, Italy, Indonesia, Egypt and more.

The event will give you the opportunity to grow your international network, get inspired from new developments and receive market entry information from international organizations from USA, Italy, Germany, Netherlands and more.

**Register  
here to  
join our  
international  
network:**
